EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad get from your pharmacist about four ounces of Jad Salts; take a table-spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Advertisement.

MI-O-NA FIRST AID FOR SICK STOMACHS

Distress after eating, belching of gas and undigested food, that lump of lead feeling in the stomach, sick headache, biliousness and lack of energy, indicate dyspepsia. Now—at once—is the time to remove the cause and stop the distress.

MI-O-NA is the remedy. Surely get a box of these healing tablets from any druggist today. Their action is safe, effective and immediate. Besides quickly stopping the distress MI-O-NA soothes the irritated walls of the stomach and strengthens the gastric glands so that they pour out their daily supply of digestive materials—your food is promptly digested and assimilated, the entire system is properly nourished—you feel strong, energetic and perfectly well.

MI-O-NA is not an experiment—it is not a cure-all—it's a scientific remedy recommended only for indigestion distress and out-of-order stomachs. These health-giving and harmless tablets are a household remedy—keep them handy whether at home or traveling. Always sold by Wells-Haymaker Co., on the money back if not benefited plan. You can surely afford to try a fifty-cent box of MI-O-NA on this basis.—Advertisement.

RHEUMATISM AND BRIGHT'S DISEASE

Prof. Budlong Was Quickly Relieved of Both Afflictions by Using Rheuma.

If you suffer from any form of Rheumatism, remember that RHEUMA goes to work quickly to remove the cause, not simply to relieve the distress. Many years' use has demonstrated that it goes to the seat of the disease and expels the poisonous matter through the natural channels—the kidneys, bowels, liver and skin.

"For many years I was troubled with Rheumatism. I suffered awfully. Tried many advertised remedies. After using your truly remarkable preparation, RHEUMA, I was fully cured."—Prof. C. J. Budlong Sound View, Conn.

RHEUMA is guaranteed by Wells-Haymaker Co., who sells it for 50 cents a bottle.—Advertisement.

Hooray! Baby To Rule the House

No Longer Do Women Fear The Great-est of All Human Blessings.

It is a joy and comfort to know that those much-talked-of pains and other distresses that are said to precede child-bearing may easily be avoided. No woman need fear the slightest discomfort if she will fortify herself with the well-known and time-honored remedy, "Mother's Friend."

This is a most graceful, penetrating, external application that at once softens and makes pliant the abdominal muscles and ligaments. They naturally expand without the slightest strain, and thus not only banish all tendency to nervous, twitching spells, but there is an entire freedom from nausea, discomfort, sleeplessness and dread that so often leave their impress upon the babe.

The occasion is therefore one of unbounded, joyful anticipation, and too much stress can not be laid upon the remarkable influence which a mother's happy, pre-natal disposition has upon the health and fortunes of the generation to come.

Mother's Friend is recommended only for the relief and comfort of expectant mothers, thousands of whom have used and recommended it. You will find it on sale at all drug stores at \$1.00 a bottle. Write to-day to the Bedford Regulator Co., 139 Lamar Bldg., Atlanta, Ga., for a most instructive book on this subject of all subjects, motherhood.

Excellent for Stomach Trouble.
 "Chamberlain's Tablets are just fine for stomach trouble," writes Mrs. G. C. Dunn, Arnold, Pa. "I was bothered with this complaint for some time and frequently had bilious attacks. Chamberlain's Tablets afforded me great relief from the first, and since taking one bottle of them I feel like a different person." For sale by all dealers.—Advertisement.

Washington News

(SPECIAL TO THE TELEGRAM)
 WASHINGTON, D. C., Mar. 3.—There is a new ruling by the parliamentarian of the House of Representatives to the effect that, when a member of Congress resigns or leaves the House for any other reason, any bill he has introduced is subject to a point of order that it has no patron and therefore has no standing in the House. Congressman John W. Davis introduced a number of bills for pensions and other matters before leaving the House to become solicitor general and when he was succeeded by Congressman M. Neely, the latter began looking after them and using his efforts to have them pass. Several of them were passed by the House and now in the Senate, which is expected to pass them also.

Major Neely was quite surprised when he was informed, a few days ago, that the bills introduced by Mr. Davis no longer have any standing in the House and that to be on the safe side he would better introduce them himself, in order that they might not be defeated by the mere raising of a point of order against them. It is not believed the Senate will raise a point of order in regard to the bills which have already passed the House, and no effort will be made to have the House pass them over, but Major Neely has introduced all the bills which Mr. Davis had introduced for First district persons and will endeavor to have them passed. Among those which he has introduced for the second time are bills providing for the payment of pensions to Robert Campbell and William H. Shipman of Wheeling; Walter Zozz of Wellsburg; Edna Workman, New Martinsville; Foster Ho, Moundsville; and Edward L. Ommond, Cheter; providing for the payment of a war claim to the heirs of E. C. Trimble, Clarksburg; and to correct the military record of Samuel Harrison; Henry Foust, Moundsville; Henry H. Illis, Botheville; and James H. McGill, Moundsville.

The question of whether the United States Government shall handle coal exclusively in the canal zone is one which will not make so much difference, after all, to American coal dealers. Colonel Goethals, governor of the Canal Zone, says that American coal is far cheaper in quality and so much lower in price that the exclusive right or not, British vessels, he says, will not use any but Welsh coal, no matter what the difference in price, and if they are prevented from getting it in Panama they will establish coaling stations in Jamaica and get their supplies there. One West Virginia company, operating in the Pocahontas field, has leased bins along the canal and proposes to engage extensively in the coal business there, but it will not be able to do its own loading and unloading, as the right is reserved by the government, so as to retain absolute control of all traffic in the canal. It is estimated that something like a million tons a year will be required to supply the demand in Panama when the canal opens, and that practically all of that will come from West Virginia, the greater part of it from the Pocahontas field.

Congressman Neely is of the opinion that he has reached the climax in the matter of letters making personal requests of congressmen. A member of the House is continually besought for all kinds of personal assistance from the contribution of cash to the appointment of federal officials. Among Major Neely's mail folders were several letters asking for money on different grounds, but the one which seemed to be unique was the request from a constituent who said he was on his death bed and probably would not be living when the letter was received by Mr. Neely, but would like a contribution of ten dollars to assist in buying his coffin. Major Neely has not heard of the death of the man and is of the opinion that the coffin will not be needed for a while, so the sending of the cash is not an immediate necessity.

L. A. Montague has been appointed a stenographer and gauger in the internal revenue service at Parkersburg, under collector S. A. Hays.

John Smith, a Fairmont colored man, has been appointed to a position as attendant in one of the retiring rooms of the House of Representatives. He was appointed on the recommendation of Congressman Neely and has begun his work. This is the first position Major Neely has had to give out since he assumed his seat in Congress.

Applications for pensions or increases in pensions have been filed with the pension bureau by Congressman Neely for Joseph Pettit, of Salem; Joseph P. Becke, of Wheeling; Rachael E. Martin, of Monongah; J. T. Ritchey, of Hancock county; Thomas M. Grumbine, of Lost Creek; George Casseday, of Moundsville; and Sigmund Routhbeck, of Clarksburg.

An extension of rural route No. 3, out of Fairmont, to benefit thirteen families, has been asked of the post-office department by Congressman Neely. Major Neely has taken up with the postoffice department the matter of establishing a postoffice at Vernon and a star route between New Martinsville and Vernon. The matter is still under advisement by the department. The people of Sincerty, who have asked through Congressman Neely for the establishment of a mail route between Pine Grove and Sincerty, have withdrawn their request and joined with the people of Burchfield asking for the establishment of a postoffice at Burchfield, and of a mail route between Pine Grove and Burchfield, which would also reach Sincerty. The matter of establishing a mail route between Weston and Pink has

been referred to the postmasters along the proposed route for replies as to the advisability of establishing the route.

The postoffice department has announced the establishment of a postoffice at Six, McDowell county, two miles from Coalwood, with William R. Martin as postmaster in place of another at Six, McDowell county, one mile from War, with Charles A. Byas as postmaster.

The removal of the postoffice at Follansbee from the old site to the east side of Main street between Broad and Ohio streets has been authorized by the department.

The name of the postoffice at Ruby, Putnam county, has been changed to Fraziers Bottom, and William S. Rocco has been continued as postmaster.

Postmasters appointed in West Virginia include Wallace J. Curry at Burch, Mingo county, in place of V. Hatfield; W. T. Vass at Excelsior, McDowell county, to succeed J. M. Stewart, resigned; Orval Kennedy at Clifty, Fayette county, to succeed E. C. Kenney, removed.

Congressman Hughes has had a bill passed through the House for Frederick Flowers, of Huntington. Mr. Flowers is totally blind and the bill carries a pension of \$50 a month for him.

J. B. Bush, superintendent of the Parkersburg schools, on his way home from the meeting of the National Education Association at Richmond, Dr. Walter South and Terence Stewart, of Morgantown; Joseph Rosier, superintendent of schools at Fairmont; Jesse Bloch, of Wheeling, on his way home from Asheville, N. C., have been in Washington in the last day or two.

UNIVERSITY

Enrollment Shows Remarkable Growth According to the Registrar's Figures.

MORGANTOWN, Mar. 3.—Professor A. J. Hare, registrar of the West Virginia University, has completed the tabulated report of enrollment of students at the state university for the scholastic year 1913-14.

From the table and the corresponding table of last year some interesting comparisons may be drawn. The remarkable growth of the university is the most striking feature of the comparison. This growth has, for the most part, been in the degree giving colleges of the university, the increase being about twenty-five per cent.

The report is tabulated every year by the registrar immediately following the classification and grades for the university catalogue, of the students of the university. The report shows that in the degree giving colleges for the present year, there are enrolled 696 students, an increase of 142 over last year. Below are the figures with comparisons:

	1912-13	1913-14
Graduate.....	30	83
Senior.....	58	30
Juniors.....	77	109
Sophomores.....	142	150
Freshmen.....	244	286
Specials.....	17	38
Totals.....	558	696

Music.....	107	123
Miscellaneous.....	50	29
Grand totals.....	715	848

Men.....	459	570
Women.....	256	278
Totals.....	715	848

In addition to the above regularly enrolled students, there were the following enrolled in the summer school: Summer school (exclusively)..... 294
 Farmers' course (10 days)..... 104
 School of Good Roads (10 days)..... 146
 Agricultural extension schools outside of Morgantown..... 622

The above total added to the regular enrollment of 848, gives a grand total of 2,014 different persons receiving instruction in greater or less amount from the university. Of these 1,392 attended classes within the confines of the university proper.

The enrollment of 294, given for the summer school, includes only those who attended the university at no other time. The entire enrollment of the summer school for 1913, was 489, but 195 of these enrolled for the regular sessions.

ONE JAILED

And Four Pay Fines for Being Drunk at Railroad Station.

Fines of \$1 and costs were imposed upon Frank Grimes, Charles Owens, Lon Wyckoff, Alexander Rhodin and Steven Kimsray when they were tried Monday evening in Justice T. G. Nicewarner's court for being drunk and disorderly at the railroad station, for which they were arrested and jailed by railroad detectives. All arranged payment of their fines except Kimsray, who was sentenced to serve six days in the county jail in default.

Australia has nearly 300,000 acres of untouched forest.

About fifty workmen are permanently employed in keeping St. Paul's Cathedral, London, England, in repair. A man who has some appreciation of the fitness of things in Mr. Jugowski, who runs a saloon in Galena, Ill.

Better Than Wealth

is perfect health; but to enjoy good health it is necessary first to get rid of the minor ailments caused by defective or irregular action of the stomach, liver, kidneys and bowels, ailments which spoil life, dull pleasure, and make all sufferers feel tired or good for nothing.

BEECHAM'S PILLS

Like a Spirited Horse —This Lozier Light Six

ARTHUR BRISBANE SAYS that the invention of the motor car was the result of, and in response to, man's world-old desire to transport his body as fast as his brain travels.

WHEN COMMODORE VANDERBILT held the ribbons over his high-stepping pair on the speedway, his body was traveling at twenty miles an hour, perhaps—but his mind was building railroads across the continent. He couldn't have thought as fast behind a pair of truck-horses.

THAT'S WHY MEN WHO DO THINGS demand cars that are capable of doing things—that can and will respond as a touch as the thoroughbred, with every nerve tuned to concert pitch, responds to your thought—to the imperceptible tremor of the rein that transmits, not a command, but a desire.

FOR THAT KIND OF MEN—men of alert minds—men who do things—men who have no patience with not only tolerate, mediocrity—for these is the Lozier Light Six designed.

NOT EXCESSIVE SPEED in season and out—such as the hair-brained speed-maniac delights in—the kind of fellow whose keenest sensation is derived from the noise of the exhaust and the wind on his face—not that!

BUT THE INHERENT QUALITY that, representing the same quality as speed, really represents much more. The quality that is inherent in the spirited thoroughbred—undefinable, but which might well be termed responsiveness to a mood—the mood of the driver.

LIGHT ON ITS "FEET": quick to start—quick to stop. Accelerate to top speed in a few seconds—a few yards. Throttle down to a well-nigh invisible quiver so you wonder if the motor has stalled and—in a jiffy, away again, while another car would be groaning under the strain of starting.

THERE IS PLENTY OF POWER for the weight. Yet the motor is not so large as to rack the chassis and other mechanisms to pieces. The shafts and the gears through which the power is transmitted are heavy enough to carry the maximum power the motor will develop—and that is sufficient to give the car that snap and ginger and speed that are peculiar to this car—and which are the qualities you want in your car.

LONG STROKE, HIGH-SPEED POWER—the kind that makes a car supple, flexible, smooth—the kind of power that is sensitive to the touch on the accelerator pedal.

YOU'LL FIND THE LIGHT LOZIER SIX is a thoroughbred in every muscle and line.

IF YOU ARE ONE OF THOSE whose body is ambitious to keep pace with your mind. If you revel, not in speed, but in what speed stands for; if you enjoy thinking as you move, and abhor the discordant interruptions that so frequently occur when riding in a car that is incapable of responding as your finger responds to your brain—then you'll find this Lozier Light Six has been made to your heart's desire just as you would have made it had you designed it yourself.

"The Choice of Men Who Know" **LOZIER** Light Six \$3250 (Light Four \$2100)
